Convergenze S.p.A. Benefit Corporation and Certified B Corp is an integrated technology operator active in the Telecommunications and 100% Green Energy sectors, with a nationwide presence through electric vehicle charging stations operated under its patented EVO (Electric Vehicle Only) network. Founded in 2005 in Capaccio Paestum, the Company began its operations in the Telecommunications sector, providing internet and fixed-line telephony services and subsequently becoming a nationwide operator. In 2015, Convergenze diversified its business by entering the Energy sector, becoming a trader of electricity generated from renewable sources and natural gas. The Company's main operational headquarters is the "Convergenze Innovation Center", a 1,350-square-meter facility spread across three levels, embodying the Company's core values of sustainability, innovation and green mobility. The building also hosts, at its base level, one of the Company's proprietary Data Centers, certified according to the ISO 27001 standard. Further demonstrating its commitment to sustainability and corporate social responsibility, Convergenze became a Benefit Corporation on September 14, 2020, and obtained B Corp certification on January 7, 2025. In this capacity, Convergenze pursues not only profit objectives but also purposes of common benefit, operating responsibly, sustainably and transparently toward its local area and community, while promoting an inclusive, equitable and regenerative economic system.
